

## Automatic Calls to Responders

The new software is connected to Durango-LaPlata 911 Dispatch! You can now get an automatic call or text when an AED is needed at your location. The software detects that a cardiac event is being dispatched and will call all of the responders listed for the nearest AEDs. There is no limit to the number of phone numbers we can list. All we ask is that you be CPR certified and willing to respond. For those who want a voice phone call, the system will say

“Hello. This is a message from the National AED Registry. Immediately retrieve the nearest defibrillator and proceed to <Event Address Given>. A potential Sudden Cardiac Arrest has been reported at the location. Again, the address is <Event Address Given>. If you are able to respond, please press 4. If you are unable to assist, press 6. Press star to hear the address again.”

For those who want a text message, the system will say

“A cardiac arrest has been reported at <Event Address Given>. Please replay with “OK” and retrieve the nearest AED if you are able to assist. Otherwise, text “NA”. Link to map: <Event Address is given via link to view of Google Map>”

**To register your phone number(s)** please contact Barbara Lawson at 884-2406 or [barbaralawson@mydurango.net](mailto:barbaralawson@mydurango.net).

## Add To Your Address Book

To ensure that you receive timely notices and this newsletter, please add [barbaralawson@mydurango.net](mailto:barbaralawson@mydurango.net) to your e-mail trusted list. This can be as simple as putting my e-mail address in your address book. Otherwise, my e-mails to you might be put in your *spam* or *junk* folder. How often do you check that?

I frequently contact our sites when they need to check their AEDs or when we get recall notices from Physio Control. I do not have time to call each location. So please help me save time by adding my e-mail address to your address book. Thanks!
